EASYPUR

Controlled Spout Systems
Portion control & accountability
for drinks dispensed directly
from the bottle!

NEW!!!

Track bottles by BRAND with
EASYPUR-120

- **FLEXIBILITY!** Track liquor poured directly from the bottle.
- **SPEED!** Easybar Easypour spouts dispense faster than competitive equipment.
- **PROTECTION!** Controlled pour spouts allow only preset portions to be dispensed and will not allow drinks to be dispensed without being recorded.
- **SAFETY!** Easybar EZP-SP1-7 is certified to ANSI/NSF 18.
- **TOTAL CONTROL!** Use Easypour alone to track unlimited bottles OR add other Easybar dispensers (liquor gun, beer controls, etc) for complete control and accountability. Easybar electronics also interface to most popular Point of Sale Systems.

**Portion Controlled Beverage Dispensing for
Liquor · Beer · Wine · Soda · Juice**

EASYPUR

CONTROLLED SPOUT SYSTEMS

TO SERVE A PRODUCT with EASYPUR:

- Select the desired portion using the pour select buttons.
- Place the bottle in the activator ring and invert bottle to pour. The activator will automatically pour the quantity programmed into the Easybar® electronics.
- Replace activator in yoke. Pour size will automatically reset to pour size 1.

EQUIPMENT DESCRIPTION & FUNCTION:

Each Easypour station consists of a control box with an activator ring and yoke to hang the ring while not in use. Easypour stations can be equipped with a station on / off keyswitch, a power on/off toggle switch, or both. The pour select switch designates what amount will be poured.

When used in conjunction with Easybar CLCS electronics, Easypour can be programmed & calibrated by computer. Detailed pouring information is collected and can be organized into informative reports using Easybar software. CLCS electronics can also be configured to ring up on a compatible POS system.

EASYPUR-7

Track unlimited bottles in seven price categories!

EASYPUR-120

Track up to 120 individual brands per station!

The **Easybar**® family of dispensing equipment includes...

Liquor & soda gun systems...

Cocktail server stations ...

Controlled backbar systems...

Beer & wine controls...

Any Easybar® dispenser operates alone or in conjunction with any other Easybar® equipment & can be interfaced to automatically ring up most major Point of Sale terminals as your drink is pouring!
